25X1	Comment:
÷	It can be assumed that recruits arrived in JUETERBO-DAMM on 20 August 1949. It is believed that recruits who were inducted in the Soviet Union in Lay 1949 may have arrived in the Soviet Zone of Germany since August 1949 in order to be distributed to Soviet Army units stationed there.
25X1	The traces and material on the other trains observed in
25X1	JUETLEBCG between 22 and 25 August 1949 belonged to the following units
25X1	? No. AAA Div of the Third Gds Mecz Army (Cadre), located in the JUETERBOG-LUCKER/AIDE area (the train may have gone to the Letzling Heath ?).
<b>米泰</b> 泰	Component unit of the 9th Gds Tank Div. Component units of the 12th Gds Tank Div have also been identified in the JUETER-BOG-LUCKERNALDE area since mid-July 1949. It is possible that some component units of the Second Gds Mecz army may have participated in the maneuvers in the WERDER-MARKENDORF area.
<b>李心本学</b>	Materiel of the Soviet Air Force.
<b>郑李孝欢</b> 馨	Tank unit of the 6th Gds Tank Div (Cadre). The component units of this division are known to hold their summer maneuvers in the GERDER-MARKERDORF training area.
